Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This is an interactive study plan presented in five books using a common format for teaching in schools, homes, and churches. The Bible, the Koran or other faith texts, give a foundation for the understanding of a particular people, thus giving believers roots upon which to build their own images in continuity with their past. This study can demonstrate for African Americans, the flow of their ancestry as a historical continuum. Where genealogical study may find a research roadblock with the last slave ancestor, African Americans find in the flow of their story, the same kind of harmony that the slaves found in the richness of the Old Testament. The value of such an inclusive understanding of the progress of a people of faith, is not limited to African Americans but can be an instrument of educational understanding for any student.
