

Biodiversity in Agricultural Production Systems (Hardback)

Filesize: 1.57 MB

Reviews

*Merely no words to clarify. I could comprehend every little thing using this created e pdf. I am just effortlessly could possibly get a enjoyment of reading through a created publication.
(Mr. Ari Powlowski)*

BIODIVERSITY IN AGRICULTURAL PRODUCTION SYSTEMS (HARDBACK)

To read **Biodiversity in Agricultural Production Systems (Hardback)** PDF, remember to click the web link beneath and download the ebook or have accessibility to other information which are in conjunction with BIODIVERSITY IN AGRICULTURAL PRODUCTION SYSTEMS (HARDBACK) book.

Taylor Francis Inc, United States, 2006. Hardback. Book Condition: New. 254 x 180 mm. Language: English . Brand New Book. While modern science has always recognized the central role that biodiversity plays in the ecological processes that maintain the Earth s equilibrium, our increasing knowledge of nature has deepened our appreciation of this principle. Consequently, those involved with implementing and maintaining sustainable agriculture systems have begun to take a far more sophisticated approach to understanding and making use of the components and mechanics of biodiversity. Providing a comprehensive and highly practical exploration of the subject, Biodiversity in Agricultural Production Systems examines abiotic ecosystem diversity and biological complexity at every relevant level. Leading researchers detail subspecies diversity, covering ecotypes, lifecycles, genes, physiology, and behavior. They also discuss species richness and supraspecies diversity, which includes foodweb interactions and non-trophic relationships, as well as above- and belowground relationships. Exploring various facets of agricultural crops and cultivation practices, this inter-disciplinary volume- * Gives an overview of the pore space dynamic in agroecosystems where most soil microorganisms reside, including bacteria, fungi, protozoa, nematodes, and Tardigrada * Examines the highly diverse and prominent role played by earthworms * Looks at the metabolic processes occurring in soils that result in the release of greenhouse gases * Outlines principles and strategies of order between interacting molecules, cells, species and communities * Looks at mechanisms of competition, exploring growth regulation, transformation, and feeding strategies, as well as toxin production, mutation, and biofilm formation * Discusses matter recycling and the diversity of microbial metabolism in soils * Shows how long-term observation plots are used to assess soil quality Biodiversity in Agricultural Production Systems provides important information for those involved with researching and implementing sustainable agricultural systems, as well as those addressing specific challenges related to soil degradation, water management, and...
