DISEASES WHILE certain diseases have always been found among the Thlingets, others that now afflict them are of recent introduction. Tumours, cancers and toothache were unknown to them until within recent years. The older ones have yet sound and excellent teeth while the rising generation experience the white people s misfortune of cavities, toothache and dental torture. A certain woman eighty years old or more, and known to us, has never had the toothache, and every tooth in her head to-day is as sound as a dollar. On the other hand, a woman yet in her twenties has had half of her teeth extracted and several of the remaining ones filled. The white man s food, especially his sweetmeats, which are now freely indulged in by the natives, is, no doubt, largely the cause of this change. While consumption is now the most prevalent disease among them, we are told by the natives themselves and by careful historians that it is an imported disease. The Indian calls tuberculosis the white man s disease, and so far as I have been able to learn it was practically unknown to him in his uncivilized state. It is common to hear consumption spoken of among our own people as The Great White Plague. This would indicate that it is surely the white man s disease. Whatever its origin with the natives, it is certain that it has a fearful hold on them. Dr. Paul C. Hutton,...
