WOMEN AND EDUCATION

LAP Lambert Academic Publishing Mai 2012, 2012. Taschenbuch. Book Condition: Neu. 220x150x9 mm. This item is printed on demand - Print on Demand Neuware - In most of the developing countries education among women has been accorded a low priority. The norms of gender behaviour and the perceived domestic and reproductive role of women which was remarkable stable over a period of time have adversely affected the women s education. In addition, forces like negative social attitude, prejudices, restrictions and beliefs also contributed to keep women out of education field. The only goal placed before a woman was to train themselves to be good housewives. After Independence female education gained importance and led to changing traditional attitudes within family and the society. However, the fact that one amongst the major and fundamental problem for women in India is the high percentage of illiteracy. A considerable literacy gap still exists between men and women even after 65 years from Independence. As a result, women have been exploited and deprived of their rights and prevented from the process of empowerment. Hence, it is imperative to understand the educational status of women. The present book is one such modest attempt in understanding the educational status of women with the factors contributing to it. 148 pp. Englisch.
