*Extensive guideline! Its such a great go through. It is definitely basic but surprises in the 50 % of the pdf. It is extremely difficult to leave it before concluding, once you begin to read the book.

He that loves and studies the laws of nature and follows her teachings will be successful in growing flowers and will also ennoble himself, build up his moral character and make of himself an honorable and useful member of the community in which he lives. Labor and meditation are not incompatible; work should never be so hard as to be irksome, but only a pleasure, and thus prosecuted it will not alone give the best results, but will at the same time afford an education, by giving opportunity to delve into the operations of Nature and Nature s laws.
