Prometheus Books, United States, 2015. Paperback. Book Condition: New. 226 x 150 mm. Language: English . Brand New Book. This introduction to space science for children uses the story of Neil deGrasse Tyson s life and career to frame the journey. Catch the thrill of the cosmos and space science through the life of Neil deGrasse Tyson--the popular astrophysicist, science communicator, and host of FOX-TV s Cosmos: A Spacetime Odyssey. In language neither too simple nor overly technical, author CAP Saucier interweaves up-to-date information about the universe and the science of astrophysics with a biographical portrait of the famous astrophysicist. Quotes from Tyson appear throughout each chapter, personalizing the science. Illustrated with striking images from the Hubble Space Telescope, the story of one man s successful life in space science may inspire kids to follow a similar path. As Tyson makes clear, there is still much to do for future space scientists: diverting asteroids, unraveling the mystery of dark matter, finding life elsewhere in the universe, and more!.
