

electronic technology. and training

By LI WEI DU SHU LING SHI LI CHUN SUN LEI MING XIE

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 239 Publisher: China Electric Power Publishing House Pub. Date :2009-08. The book is divided into 11 chapters. including theoretical articles and training articles of two parts. The main contents include theoretical articles used semiconductor devices. the basic amplifier circuit. integrated op-amp circuit and application of the basic components. DC power supply. logic gates and combinational logic circuits. flip-flops and sequential logic circuits. DA converter and AD converter and so on. Training includes articles mainly resistors. capacitors and inductors awareness and detection; semiconductor devices and integrated block awareness and detection devices; used electronic instruments. electronic devices and manual welding tools welding methods; analog electronic circuit installation and commissioning ; digital electronics installation and commissioning. This book moderate depth; structure and innovative teaching methods; only put forward a clear knowledge of the target. there are specific skills objectives; sections with thinking and practice. each chapter has summary and exercises. is a unique vocational education materials. Contents: Introduction Chapter 1 Theoretical articles semiconductor devices commonly used in the basic knowledge 1.1 1.2 pn semiconductor junction diode 1.3 1.5 1.4 Special...
